SUMMARY

I am Muhammad Zeeshan Aslam, a Flutter developer with 2 years of experience creating professional Android, IOS, and Web apps. I deliver high-quality applications that meet Google and Apple guidelines, ensuring approval without risks. I specialize in responsive designs, seamless user experiences, and efficient performance. My services include Flutter Material Design, Firebase and Google API integration, user authentication, WebSockets integration, and complete API/database solutions. I also excel in optimizing apps, fixing bugs, and adding features like social media integration, push notifications, and Google Maps navigation for a polished and professional app.

EXPERIENCE

FlutterFlow Developer

Sovanza

Feb '25 — Present

Lahore, Pakistan

As a FlutterFlow Developer at Sovanza, I was responsible for designing and implementing visually appealing, responsive, and high-performance cross-platform applications. My key contributions included the development and integration of multiple innovative projects with API integrations, real-time map functionalities, and AI features:

- Guider Developed an intuitive guide and location-based application that helps users discover restaurants and places nearby. Integrated Google Maps to show live locations, track destinations, and manage visited, saved, and favorite spots.
- Seria / Seria Pro Worked on e-commerce functionality powered by WooCommerce and Dokan APIs, building digital marketing platforms that supported multi-vendor systems, product listings, and seamless user interfaces for sellers and buyers.
- AI Dispatching Integrated Vapi APIs to create an AI-powered assistant for dispatch operations. Built smart communication and task-handling workflows, allowing AI to manage dispatch processes, respond to queries, and perform automated actions efficiently.
- DSCVR A minimalistic place-guidance app with full Google Maps integration, enabling users to explore and navigate to specific locations with ease.

Flutter Flow Developer

DEVSINN'S TECHNOLOGIES

Sep '24 — Feb '25

Lahore, Pakistan

- Developed SendSorta, an innovative parent-child control app that empowers parents to monitor their children's media consumption.
- Integrated an AI assistant to provide personalized insights and recommendations, enhancing family media experiences.
- Developed WeTeach App like teaching student online app through Flutter Flow.

Flutter Developer | Team Tech Lead

WEB VISTA COMPANY

Sep '24 — Present

Lahore, Pakistan

Currently working on a social media application akin to Facebook, leveraging Flutter to create an engaging and user-friendly interface. Collaborating with a dynamic team to implement features that enhance user interaction and connectivity. . Leading the development of major Flutter applications with a focus on performance and user experience.

- Fitness App: Designed and developed a health and workout tracking app.
- Social Media App: Built a full-featured social media app similar to Facebook, enabling posts, chats, profiles, and more.
- Alarm App: Developed a custom personal alarm/reminder app for a client.
- Emergency SOS App: Created an emergency alert app for quick SOS responses.
- Currently leading a team on a Facebook-like social media app to enhance user interaction and connectivity using Flutter.

iOS Developer

FILES TECHNOLOGY & FILES STUDIO PVT LTD

Mar '24 — Jul '24

Lahore, Pakistan

- As an IOS Developer specializing in Flutter at Files Technology & Files Studio Pvt Ltd, I'm tasked with integrating third-party APIs into our game projects.
- Leveraging my expertise, I seamlessly incorporate Rapid APIs to streamline development workflows, ensuring rapid prototyping and efficient iteration cycles.
- Collaborating closely with cross-functional teams, I contribute to conceptualizing and implementing innovative game features.
- Through code reviews and knowledge sharing sessions, I foster a culture of continuous learning and improvement.
- Navigating complex technical challenges inherent in game development using Flutter, I maintain up-to-date knowledge of industry trends to drive innovation and maintain our competitive edge.

Flutter Developer / Mobile App Developer

DEVSINN'S TECHNOLOGIES

Dec '22 — Aug '24

Lahore, Pakistan

- As a Part Time Flutter Developer at DevsInn Technology, I excelled in creating high performance, visually appealing mobile applications. I led UI/UX design implementation, integrated third-party libraries, and optimized app functionality for a seamless user experience. My role involved collaborating with cross-functional teams, staying updated on Flutter advancements, and contributing to a positive work environment.
